

## Henry Herbert Bespoke Price List (2010)

**Don't just check the price, check your tailor too!**

- Does he use *only* wool in his suits? **Henry does.** Check for nasty man made fibres, such as polyester. And his shirts? Are they only the finest Egyptian cotton? Don't be afraid to ask.
- Is he a bespoke outfitter? **Henry is.** Will your suit for its subsequent fitting come back unfinished, with stitching marks, ready to make the best fitting suit for you? If it comes back finished, straight away – and your tailor is not with you to go through the suit with you – it is not a bespoke suit
- Is your suit Made in England, with English wools, from English sheep, spun in English mills?  
**Henry makes his suits in England, using the best English materials and tailors.**
